

SAHILKUMAR PRASAD

SOFTWARE DEVELOPMENT ENGINEER

Mumbai, India | +91 8451968851 | prasadsahil06@gmail.com

github.com/Sahill1001 | linkedin.com/in/sahilkumar-prasad-74abba272 | Portfolio | LeetCode

Professional Summary

Backend engineer (Java 21/Spring Boot) with 3+ years building multi-tenant SaaS APIs, OAuth integrations and ERP/accounting systems on PostgreSQL, deployed with Docker, Azure and GitHub Actions. Comfortable owning features end to end in small teams, from schema and API design to testing, CI/CD and production fixes. Promoted within six months of joining my first company.

Professional Experience

Software Development Engineer

Jun 2026 – Present

Invinity India

iProspect | B2B Prospect Intelligence

[Live site](#)

- Engineered Java 21/Spring Boot REST APIs and PostgreSQL persistence for a multi-tenant platform covering company discovery, contact selection and email outreach.
- Secured mailbox OAuth for both Google and Microsoft using single-use authorization state and tenant-bound credentials, so customers can connect their own mailboxes without cross-tenant exposure.
- Eliminated duplicate prospect records by creating them only after confirmed email delivery, and tracked customer replies.
- Raised reliability with JUnit/Mockito OAuth tests, Maven/GitHub Actions checks on every change, Docker/Azure deployment configuration and versioned Flyway migrations.

ICMS / Smart AHU Platform | Industrial Monitoring

[Live demo](#) • [Client router](#)

- Built telemetry, alarm and reporting APIs on PostgreSQL/TimescaleDB, normalizing external sensor readings into consistent AHU tags.
- Root-caused and fixed missing report data in the sensor pipeline, restoring accurate reports.
- ICMS Client Router:** implemented server-side email routing that directs each user to the correct client workspace.

Software Development Engineer

Nov 2023 – May 2026

Crescent Engineering and Consulting

Navi Mumbai

- Built a Java/Spring Boot bridge that translates ERP billing into accounting entries and posts them to Tally via XML/HTTP.
- Prevented unbalanced and duplicate postings with debit/credit validation, duplicate-request checks and a finance review step before entries reach the posting agent.
- Owned end-to-end development of five ERP modules (Inventory, Purchase Orders, Production/Operations, Billing and CRM) and resolved API and synchronization failures.

Web Developer

May 2023 – Oct 2023

Crescent Engineering and Consulting

Navi Mumbai

- Built web interfaces and REST API integrations; promoted to Software Development Engineer within six months.

Freelance Client Project

Manisha Enterprises | Freelance client project, May 2026

[Live site](#)

- Delivered the full website and backend within 15 days: Java 21/Spring Boot APIs with MongoDB, JWT admin authentication and Cloudinary media uploads.
- Built a Next.js/TypeScript website and admin dashboard to manage products, galleries, videos and customer enquiries.

Technical Skills

Primary stack: Java 8, 17, 21, Spring Boot, Spring Security, Spring Data JPA/Hibernate, REST APIs

Databases: PostgreSQL, TimescaleDB, MySQL, MongoDB, Flyway

Supporting: Next.js, TypeScript, JavaScript

Testing & delivery: JUnit, Mockito, Maven, Git, Docker, Azure, GitHub Actions (CI/CD)

Currently learning: System design, microservices, distributed systems, event-driven architecture

Education & Achievements

Bachelor of Science in Computer Science

2020 – 2023

University of Mumbai

CGPA: 9.57 / 10

- Solved 400+ data structures and algorithms problems on LeetCode using Java.
